

CAREER OBJECTIVE

Passionate web developer skilled in React, TypeScript, and modern UI/UX practices. Seeking an opportunity to contribute to impactful projects. Successfully built and deployed a full-featured, animated portfolio website showcasing my technical and design abilities.

EDUCATION

B.Tech, Computer Science & Engineering
Vishwakarma Institute of Technology, Pune

2024 - 2028

TRAININGS / CERTIFICATIONS

Frontend Web Development With React And TypeScript Mar 2025 - May 2025 FreeCodeCamp, Virtual Completed hands-on training in Frontend Web Development covering HTML, CSS, JavaScript, and responsive design. Learned React with TypeScript through project-based tutorials and built a full-featured portfolio website. Completed Git & GitHub version control course and actively apply it in projects. Attended workshops on UI/UX Design, animations, and modern deployment tools like Netlify and Vercel.	Data Structures And Algorithms In C++ Feb 2025 - Present Self-paced Via LeetCode & GeeksforGeeks, Virtual Focused on solving problems related to arrays, strings, sorting, recursion, and STL in C++. Practicing daily to strengthen logic and problem-solving skills.

PROJECTS

MyPortfilo ↗ Jun 2025 - Present Personal Portfolio Website A fully responsive, interactive, and modern portfolio website developed using React with TypeScript, enhanced by clean animations and a minimal UI. The site highlights my technical skills, featured projects, and professional background in a clear and engaging layout. It serves as a centralized platform to present my resume, contact info, and showcase development work. Tech Stack: React (TypeScript), Tailwind CSS, JavaScript, JSON, Vite

SKILLS

<ul style="list-style-type: none">• HTML• Python• Node.js• PHP• Data Analysis• Vite	<ul style="list-style-type: none">• JavaScript• Web development• SQL• MySQL• Angular 2.0• Tailwind CSS	<ul style="list-style-type: none">• CSS• C++ Programming• MongoDB• WordPress• React• TypeScript

EXTRA CURRICULAR ACTIVITIES

- Actively involved in frontend development beyond academics. Built and deployed a personal portfolio using React, TypeScript, and Tailwind CSS. Participated in coding challenges and UI design tasks on platforms like HackerRank and Devpost. Regularly explore new

web technologies, contribute to side projects, and stay updated with design trends. Engaged in tech-related college events and collaborated with peers on mini projects and workshops.

ADDITIONAL DETAILS

- Hackathon finalist | Top 1% in C++ test | Certified in C, Python & Frontend (HTML/CSS) | Practicing DSA in C++ on LeetCode & GFG | Strong foundation in coding with ongoing skill development.
- Consistently Learning and Practicing DSA in C++
- Strong Communication & Leadership Skills
